

Zeochem AG

History: Zeochem AG was founded in the year 2001, thus being a spin off from CU Chemie Uetikon. It is a member of CPH Chemie + Papier Holding AG, Switzerland.

Zeochem AG is the leading manufacturer of Molecular Sieves, Silica Gels, Chromatography Gels and hydrophobic zeolites.

Parent company:	CPH Chemie + Papier Holding AG, CH-6035 Perlen/LU, Switzerland
Business segments:	Chemicals, Paper and Packaging Industries
Turnover (2006):	CHF 500 Mio
Number of employees:	1000

Zeochem AG

Activities: Manufacturing, development and sales of chemical products

Products: Molecular sieves 3A, 4A, 5A, 13X, CaX, LiX, LSX
High silica Zeolites (HPZ), Silica gels white, Rubingel

Applications and markets:

for Molecular sieves and Zeolites: Natural gas dehydration and purification
Industrial gases Polyurethanes
Petrochemicals Catalyst carriers
Alcohol dehydration VOC and deodorizing
Air brakes dehydration Refrigerant fluids dehydration
Air drying Packaging

for Silica gels: Desiccants Pharmaceutical industry
Desiccant bags Product purification
Chromatography gels Antiblocking agents
Flash Chromatography Beverage industry
Column chromatography Catalyst carriers
Analytical Chromatography Preparative Chromatography

Production sites: Zeochem AG runs production plants in Uetikon, Switzerland and in Louisville, KY, USA.

Sales and Technical Service: Zeochem AG operates offices in Uetikon, Switzerland, in Kaarst, Germany, in Louisville, Kentucky, USA, in Houston, Texas, USA

ISO-Certificate: Zeochem AG is ISO-certified with SN EN ISO 9001:2000
